Drainage	Excellent percolation

PACKAGING

Bulk	Truckload
Ships from	Confirmed with your quote

FEATURES

- **Rich crimson red.** A natural red shale color that frames the outfield.
- **Less dust.** Half of the 1/8 inch minus fines are removed.
- **Drains.** Excellent percolation and drainage.
- **Durable.** Holds up to play and maintenance equipment.
- **Easy to spread.** Lightweight material that spreads and levels quickly.
- **Player safety.** A firm, consistent surface, with the crunch underfoot that warns players they are near the wall.

Recommended for: Baseball and softball warning tracks at colleges, schools, parks and municipal fields.

Application: Spread evenly over a prepared base, rake level and compact. Ask us for a quantity estimate for your track length and width.

Avoid creating and breathing dust during application. A safety data sheet is available on request. Values shown are typical and may vary slightly between lots.
